

Bathurst High School's Attendance Incentive

"Everyday Counts: Boosting School Attendance Together"

Our Objective:

To promote regular and punctual attendance among students and staff, fostering a culture of commitment to learning and personal responsibility.

Program Description:

Our "Everyday Counts" attendance incentive program aims to reward students who consistently attend school on time.

Students:

A student who misses 7 days or less in a full semester course will have the benefit of having their exam count for as little as 10%, 25% or as much as 40% - whichever one results in the higher final mark. The 7 days or less policy is per course.

The only eligible absenteeism that will not count against the 7 days is if the student is away with the school on an co/extra-curricular activity or if the student must be away due to a death in their family. All other absent days from school count towards the 7.

Three (3) tardies in one class will count as one (1) absent day towards the incentive.
